

Hug-A-Plug Executive Overview:

- Headquarters: Brighton, Michigan
- Manufactured in Decatur, Indiana
- In Business Since: 2006
- Target Market: Homes and offices using standard electrical outlets
- Status: Privately held

Hug-A-Plug, Inc. manufactures and markets high quality, value added electrical current taps and adapter plugs for the home and office. Founded in Brighton, Michigan, all of our products are made in the USA and carry a lifetime replacement warranty.

Ever try to connect an electrical cord behind your furniture (bed, dresser, wall unit, etc.) and couldn't because there wasn't enough space? Wish you could move furniture or appliances closer to the wall without damaging electrical cords?

Hug-A-Plug was designed to solve these two common problems when connecting power cords to standard outlets: minimize the space required to plug a cord into an outlet, and reduce damage to cords. As long as we were designing a new plug, we thought "why not make them high quality, pleasant to look at and easy to use?" So

we did. We think you will agree.

We take pride in the quality of our products and that they are made in the USA. Our products are designed to provide solutions to problems encountered when connecting cords, chargers or transformers to outlets. You will appreciate the improved safety, appearance, convenience and added space when you use Hug-A-Plug.

At Hug-A-Plug our mission is to produce products that solve a common problem, are of the highest quality and provide the best consumer value in its class. Our core values define who we are and how we do business:

- Customer
- Product Excellence
- Integrity
- Innovation
- Change
- Cost Awareness
